Trouy,

Dear Madam, Dear Sir,

Having lived in Paris, Ile-de-France, since 1989, I now have the desire to leave the region. I have reviewed the opportunities inside Safran group and have chosen to move out of the group.

For each of the roles described in the enclosed resume, I have proven the capacity to adapt to the new problems met. Within the last years, I have also proven my creativity having submitted many files for patent application.

For example, my last function was an opportunity to work within an international team and to build an efficient international network developing a global synthesis of processes. One of my key objectives is to maintain and develop my fluency in English.

To allow you to evaluate the above, I attach my appended resume presenting the numerous functions and missions that I was responsible for.

I would like to assure you that I am very interested to work for your organization where I believe that I will find the opportunity to develop and contribute in an international framework.

I would be very pleased to meet and to review any suitable opportunities and remain to your disposal for any additional information you may need.

Jean-Pierre, L., DUMAS
